Restaurant

Directions

In this lab you will be creating a program that functions as an ordering system for a restaurant. You will make the menu and you must have 6 unique appetizers, 12 unique entrees and 4 unique deserts.

The program will contain the following menus and menu items:

- **Menu**
 - Appetizers
 - Entrees
 - Desserts
- **Check out**
 - View Cart

Selecting Appetizers, Entrees, Desserts, View Cart will load the corresponding panel into the Frame.

Menu Panles Appetizer / Entree / Dessert Panles

- Each panel will include a scrollable view that contains a single JPanel.
 - The JPanel will include:
 - A heading with the correct name in a large bold font (Appetizers, Entrees, Desserts)
 - The Entrees panel will need sub headers that are bold, but use a smally font than the heading.
 - The menu items in the category.
 - Each menu item will contained in a seperate panel that includes:
 - A picture of the menu item
 - The name of the menu item
 - The descriptione of the menu item
 - The cost of the item
 - A quantity ordered field that can't be edited
 - An add button that incleases the quantity ordered by one
 - A reomve button that lowers the quantity ordered by 1 (disabled when the quaity ordrded is 0)

- The background color of the menu items must alternate between two colors.

View Cart Panel

- A scrollable view that contains a single JPanel.
 - The JPanel will include:
 - A scrollable table with the following categories
 - Item Name
 - Quantity
 - Cost
 - Extended cost (Quantity multiplied by cost)
 - A labeled field for tip percentage that only accepts positive integers
 - A Receipt Section including:
 - Subtotal
 - Rounded to 2 decimal places (**Disabled**)
 - Tax
 - The tax rate is 8.25%
 - Rounded to 2 decimal places (**Disabled**)

 - Rounded to 2 decimal places (**Disabled**)

Rubric (1 Other grade)

Points	Task
10	Menu Pages display in a scrollable area
10	Type Heading
10	Category Headings (Entrees only)
10	Alternating color Menu Item Panels
10	Menu Item - Pictures
10	Menu Item - Names
10	Menu Item - Descriptions

10	Menu Item - Add Button
10	Menu Item - Remove Button
10	Quantity Display

Rubric (2 Other grade)

Points	Task
10	Cart displays in a scrollable area
30	Table display with headings
20	Labeled Tip entry field
10	Label / Field - subtotal
10	Label / Field - tax
10	Label / Field - tip amount
10	Label / Field - total

Rubric (1 Minor grade)

Points	Task
10	Type Page - Add Button updates quantites correctly
10	Type Page - Remove Button updates quantites correctly
10	Type Page - Remove button enables / disables properly
10	Type Page - Scrollable
10	Checkout Page - Scrollable
10	Checkout Page - Ordered Chart
10	Checkout Page - Cost / Extended cost values
10	Checkout Page - Positive integer input for tip amount
5	Checkout Page - Correct subtotal
5	Checkout Page - Correct tax
5	Checkout Page - Correct tip
5	Checkout Page - Correct total
